

SCAM ALERT

A new scam has been occurring in other states whereby someone claiming to be with the Real Estate Commission is contacting licensees requesting a social security number and credit card number in order to pay a fee owed to the Commission or else their license would be suspended or revoked. In some cases, the scammers indicate the licensee has ignored a letter from the Commission or they recite an incorrect social security number and demand the correct one. In other cases, the scammers indicate a processing fee is owed due to a new fingerprinting requirement mandated by state law.

If you are contacted, do NOT give out the information and report it immediately to your local law enforcement agency and to the Kansas Real Estate Commission at 785-296-3411 or krec@krec.state.ks.us. You may contact the Commission at 785-296-3411 to verify a staff member's identity.
